

Technical Information WASH & WAX ECO

Description :

Wash and Wax is It is a highly concentrated detergent that quickly cuts through dirt and road film, while at the same time leaves a layer of wax behind to enhance the appearance of the finish. Wax layer repels water and gives superior beading effect. When the concentrated Wash and Wax is blended with water produces foamy look becomes easy for any kind of applications.

Features And Benefits:

Wash and Wax has a pH of about neutral after dilution and safe to use on all vehicle surfaces. It produces superior wax-like protection on the car body surface. The rate of dilution of Wash and Wax with water is very high and makes the product highly economical.

Application And Dilution:

Only 2 ounces of concentrated Wash and Wax per pail of clean hot or cold water gives mountains of hardworking soil-suspending suds. It can be used either by hand in bucket or foaming spray wash for auto car wash.
